

I got a tremendous amount out of this was very freeing for me. I acted out a lot of fantasies and emotions, and generally felt loose enough to perform in front of people and try new things out. Suzanne & David were excellent in this respect. They offered a kind of controlled anarchy, a controlled space to bring out spontaneity and creativity. They are so good that the whole process appears seamless as if it really were all being "made-up" by them at the moment. Clearly, they had a firm hand on the wheel the whole time, and are so good so fluent that it presents itself as controlled spontaneity. I felt able to open up with these people and within this environment. And I received useful feedback that helped my understanding of the entire creative and presentational process. It was extremely encouraging, and I learned a lot.
